About me...

As a freshly graduated in computer science, I am motivated, dynamic and always ready to learn to expand my knowledge and experiences. I am a passionate fullstack web developer ready to integrate into the professional world.

Formation

2024-2025	Master's degree on Computer Science Ecole Nationale d'Informatique - Fianarantsoa, Madagascar
2022-2023	Bachelor's degree on Computer Science Ecole Nationale d'Informatique - Fianarantsoa, Madagascar
2018-2019	Baccalaureate College Saint Francois Xavier - Fianarantsoa, Madagascar

Experiences

12/2025- ...	Application developer trainee YAS Madagascar • Development of a REST API in Laravel (endpoints, database) • Integrated a Figma template into a dynamic web interface using React JS. • Developed from a Figma design, consuming the existing Laravel REST API.
05/2025-11/2025	Full-stack developer intern Eray digital Madagascar • Designed and developed a time-and-attendance web application with Laravel (back-end) and React JS (front-end) • Integrated a Figma template into a fully functional interface. • API development and integration of the template created in Figma
